

Ahtsham ul Haq

background:

Hi, **Ahtasham** here from Bahawalpur. A bit about my background is I did Full Stack Development Course from TICER. I didn't only learn the basics of my field, because of the professional environment I got the most valuable asset one can have, experience.

AHTASHAM UL HAQ

Ui UX designer / Graphic Designer

A skilled and creative freelance UI/UX designer with three years of experience in delivering exceptional user experiences for diverse clients. Seeking engaging projects where I can leverage my expertise to design intuitive and visually appealing interfaces that drive user satisfaction and business growth.

Future Plans:

I am looking forward to develop innovative web applications to address real-world needs & pursue continuous learning to stay updated with emerging technologies.

Also I wanna explore freelance opportunities, contribute to open-source projects, and network with industry professionals to build a successful career in web development.
